The RRC Peer Educator Workshop was organized by MDACS on 1st August 2022. The prime objective was to inform, engage and get the audience to talk about HIV/AIDS and express their thoughts about the epidemic.

This event has not only helped to reduce the stigma and discrimination around HIV/AIDS, but has also motivated students to work towards prevention and control of HIV in the workplace and in public settings.

This workshop aimed to bring HIV/AIDS out into the public domain and encourage healthy conversations. By doing so, it has also tried to reduce to an extent the stigma that is attached to the virus.

This workshop brought about awareness amongst the youth about HIV/AIDS, so that they could come in handy at the most opportune time. Overall, the workshop was very informative and the students sure did enjoy it.
