Academic Year 2022-23 (Even)

ACTIVITY REPORT on Pentium 3 Processor

Organized By:	Dr. Vaishali Gaikwad
Date of the Event:	March 28, 2023
Venue:	Computer Center
Name of the Speaker(s):	Prof. Dipti Patole
Designation and Organization of the Speaker(s) :	Assistant Professor, Information Technology Department, K. J. Somaiya College of Engineering, Vidyavihar
Participants Details:	SE
Number of Participants:	63

OBJECTIVE(s):

1. To appraise the architecture of advanced processors.
2. To understand the real time applications of Pentium 3 processor.

EVENT OUTCOME(s):

1. Students are able to appraise the architecture of advanced processors
2. Students are able to understand the real time applications of Pentium 3 processor.

KEY POINTS:

Dr. Vaishali Gaikwad welcomed the participants, introduced the speaker to the audience and coordinated the guest lecture.

The expert speaker, Prof. Dipti Patole started the session by explaining the concept of Pentium processor and its use in the different embedded applications.

Further, following topics were covered

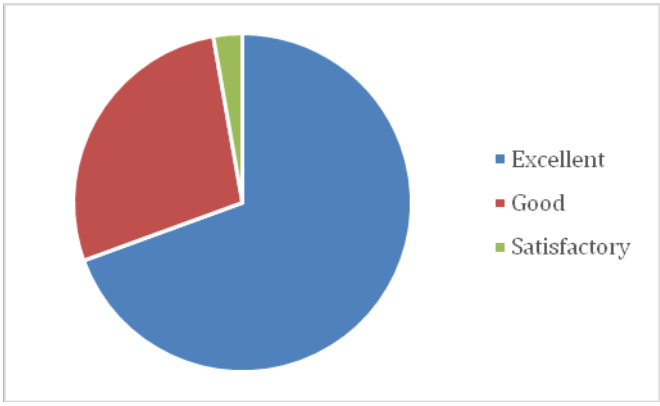
1. Architecture
2. Pipelining
3. Memory management
4. Real time applications

The lecture was followed by a Question-Answer session, facilitating the participants to get inputs from speakers on their queries related to the topic of the lecture. All speakers addressed the questions and provided their valuable recommendations for the same to the participants.

FEEDBACK:

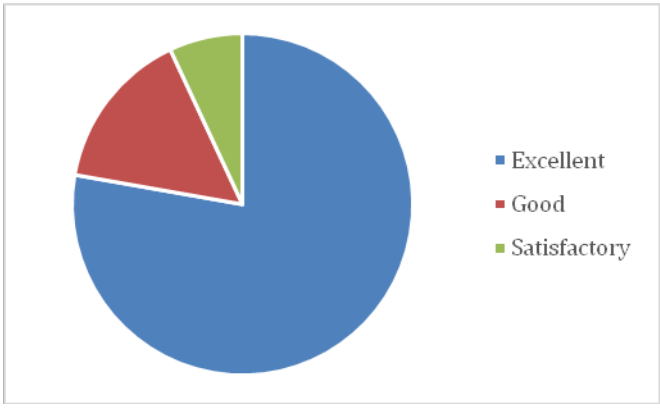
1. Rate the enhancement in your ability to apply engineering knowledge in developing and designing solutions for different problems through the investigation methods in embedded systems.

63 responses



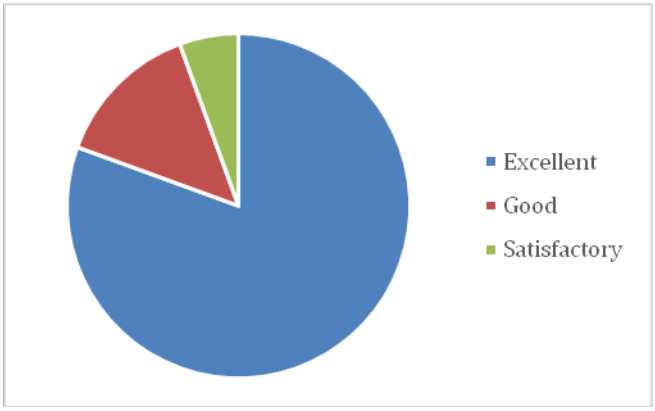
2. Rate your ability to appraise the architecture of advanced processors.

63 responses

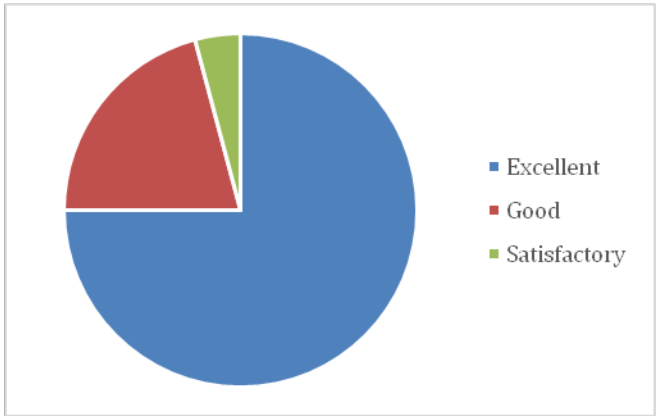


3. Rate the enhancement in your communication of and ability to apply modern tools and technology apply in real time application areas.

63 responses



4. Rate your ability to investigate Pentium processor architecture in independent by applying instruction set of Pentium 3 processor.
63 responses



PO MAPPING:

	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2
EO1	3	2	2	2	2	3						2	2	
EO2	3	2	2	2	2	3						2	2
