Student Coordinator(s)

1. Bhakti Sharma

Time & Place:

Zoom Online

16/03/2021

03:00am - 04:30pm,

Xavier Institute of Engineering

Department:

Computer Engineering

No of participants: 94

EVENT: One of our alumni interacted with students of TE and BE Computers.

Details of the resource person: Ms. Pooja Sharma, Passed out from our Department in 2018, Currently working in Zycus, has 2 years of industry experience, was the TPO co-ordinator.

Short description:

Target audience: TE and BE Computer engineering students

Purpose:

Share her journey after B.E. passing

Some tips and tricks regarding placements

Benefits:

Get insight of how placement process works

Help students to prepare for job interviews

Students can clear their doubts or insecurities regarding placement

The event was held on zoom online platform, around 94 students from TE and BE Computer branch attended the event.

The event began with a general introduction about the speaker, followed by the speaker sharing her experience of placements taken in our college during her time. She guided the students on about how to face interviews, different experiences of the placement happened in our college, guided them to listen the pre placement talk of each company properly as it may help during HR interviews.

Student Feedback and Benefits:

It was quite informative and beneficial for third- and fourth-year students as it covered almost all doubts regarding placements.
