

July is a time to honor progress, embrace unity, and step forward with purpose. As Nelson Mandela reminded us, *"Action without vision is only passing time."* This month invites us to turn our efforts into impact, blending determination with clarity of vision. July calls us to recognize the milestones we've reached while preparing for the greater goals that lie ahead.

With the publicity of the Allyn Girls Committee, we highlight the strength of voices rising together for empowerment and change. Visibility is power, and by sharing stories and shining a light on purpose-driven initiatives, we inspire others to believe in what's possible. As Malala Yousafzai said, *"When the whole world is silent, even one voice becomes powerful."* July reminds us that collective voices create lasting influence.

Rochelle D'sa (TE CSE)

Rochelle D'sa's journey so far has been a blend of learning, creating, and giving back.

Through her role as an NSS volunteer, she has contributed to meaningful community service initiatives, which taught her the value of teamwork and social responsibility. Being part of the TEDxXIE 2025 team was another enriching experience, allowing her to collaborate with passionate individuals and be part of inspiring events.

Recently, Rochelle completed the IBM SkillsBuild AI Agent Architect Summer Certification Program with a special focus on AI for Child Well-Being, which deepened her interest in using technology for social good. At present, she is working with her team on a Sign Language Website for their mini project—an initiative close to her heart, as it aims to make communication more inclusive for the hearing-impaired community.

Shravni Bandodkar (TE Comps)

This month has been a fulfilling blend of learning, exploration, and creativity for Shravni Bandodkar. She remained focused on academics, ensuring consistent progress in her studies while also dedicating time to personal growth. Alongside coursework, she had the opportunity to deliver presentations in college, which not only boosted her confidence but also enhanced her communication skills.

Beyond the classroom, Shravni enjoyed exploring new places, gaining fresh perspectives and inspiration. Meanwhile, her mini project has been progressing steadily, with each milestone bringing her closer to completion. Overall, this phase has been both productive and enriching, as she continues to balance academic commitments with meaningful experiences.

Siddhi Patil (SE EXTC)

Siddhi is thrilled to share some recent milestones in her journey. She was selected as the Assistant Graphics Head of XIE-IET On Campus after an inspiring and memorable interview. Although she initially felt scared and uncertain about how things would go, she pushed herself to step out of her comfort zone. Being part of a committee makes the experience even more special for her, as it represents a meaningful achievement and a step forward in her growth.

Allison Suvarna (TE CSE)

This month has been a whirlwind of learning and growth for Allison. She collaborated with six teammates on an IBM project under the AI Agent Architect program, where they experimented, brainstormed, and created something they were genuinely proud of. At the same time, she has been progressing with her mini project, focusing on gathering and processing data with her team to build a strong foundation for the next phase.

It has been a busy, challenging, and exciting time, and Allison is looking forward to what the rest of the semester brings.

Disha Gupta (TE CSE)

August has been a month full of learning, milestones, and celebrations for Disha. She began working with her group on the *Mini Project – an End-to-End Encrypted Chat Application*, combining innovation with security in communication. She also received her Semester 4 results with a proud 9.38 CGPA, reflecting consistent effort and dedication.

Beyond academics, Disha took a step forward by applying to join the Cyber Cell and the Cultural Committee, aiming to broaden her skills and experiences. August being both a festive month and her birthday month, she celebrated Friendship Day with her college friends, creating memories to cherish.

She also successfully completed the IBM Group Project and is eagerly looking forward to the exciting opportunities the coming months will bring.

Kanchan Kumari (TE IT)

Kanchan had an amazing time interacting with people who support growth. Engaging in the exchange of different perspectives has helped her broaden her mindset in many ways. She is currently focusing on improving herself and giving her best in everything she does.

She also researched various brands and their marketing strategies, connecting her findings to one of her course lectures on why and how companies put sales on different products and generate profits. A key observation she made was that these strategies often rely on sentiments, emotions, and feelings to make products more eye-catching and profitable.

Anjali Walekar (TE CSE)

Anjali's recent journey has been marked by both academic and personal milestones. Her mini project team completed the data processing phase for their AI-based CNN model and is now working on training it. She also earned IBM SkillBuild badges along with five classmates, progressing toward becoming an AI Architect Agent.

These experiences have taught her valuable lessons in teamwork, coordination, and technical growth, and she is truly grateful for the progress so far. Anjali looks forward to more exciting chapters ahead.

Anushree Verma (TE CSE)

Anushree has been actively engaged in academics and skill development. For her mini project, she and her teammate completed the data processing phase for their AI-based CNN model and passed the dataset to the next team for modeling. Alongside five classmates, she also earned IBM SkillBuild badges under the IBM SkillBuild Program, progressing toward the AI Architect Agent track.

These past weeks have been focused on strengthening teamwork, refining coordination skills, and advancing technically. Anushree looks forward to the opportunities ahead.

Kashvi Gautam (SE COMPS)

Kashvi proudly served as the Assistant Technical Head for the IET Committee. In this role, she was responsible for overseeing technical arrangements, coordinating with teams to ensure smooth audio-visual operations, and troubleshooting on the spot. Her efforts contributed to creating a seamless and well-managed experience while strengthening her leadership and problem-solving skills.

The Second Edition of the July Newsletter celebrates the inspiring accomplishments and journeys of our members. This mid-year mark reflects not just achievements, but also growth, creativity, and the spirit of learning that each individual brings forward. Their dedication and passion remind us that every step taken adds value to the larger journey. Here's to carrying this momentum into the months ahead with even greater enthusiasm and success!
