

As September unfolds, embrace every opportunity with optimism, pursue your goals with purpose, and let your consistent efforts and determination bloom into meaningful success and growth.

Rani Chennamma: India's Fearless Queen

Kittur Rani Chennamma, the brave queen of Kittur, stood tall against the British in 1824, refusing to bow to their unfair rule. Leading her army with courage and determination, she fought fiercely to protect her people, even when the enemy was stronger.

Her life teaches us the power of fearlessness, perseverance, and true leadership. Rani Chennamma remains an inspiring symbol of strength and patriotism, reminding us that standing up for what is right is the mark of a true hero.

This season, let's honor bravery with pride, embrace courage and determination, and step into challenges with fearlessness, focus, and purpose.

Shravni Bhandodkar
TE COMPS

Shravni had a fulfilling and productive second half of September. She actively participated in the Allyn Girls meeting with Allan Sir and Lynda Ma'am, where the preparations and event proved both enjoyable and enriching. On the academic front, she performed well in her Honours exam and further strengthened her learning by appearing for two NPTEL exams. Overall, this period was marked by growth, achievements, and valuable experiences.

The second week of September was a memorable one for Anjali, marked by learning, celebration, and cherished moments. She had the honor of performing the aarti during the meeting with Allan Sir and Lynda Ma'am, where she also received the prestigious 10-pointer achievement award. The week was filled with joy—spending time with friends and family, enjoying festive preparations for Navratri, and embracing traditions at home. Adding to the excitement, Anjali and her team also began preparations for the upcoming ICATES event in collaboration with the IET and CSC committees.

The latter half of September was a blend of academics, culture, and personal milestones. She successfully cleared her Honours AIML exam with good grades and celebrated Navratri with devotion, highlighted by a lively Dandiya Night in college. She also achieved a major personal milestone by completing over 200 days of consistent problem-solving on LeetCode. Towards the end of the month, preparations began for the upcoming ICATES International Conference in collaboration with IET, offering valuable exposure and skill-building. Overall, it was a phase of achievement, celebration, and growth.

The latter half of September was both meaningful and rewarding for Rebecca. She enjoyed the meeting with Allan Sir and Lynda Ma'am, where contributing behind the scenes gave her a fresh perspective and a stronger sense of connection. Academically, she excelled in her Honours exam and further enriched her learning by completing two NPTEL courses—*Python for Data Science* and *Demystifying Networking*. These experiences not only strengthened her technical foundation but also enhanced her problem-solving skills. Overall, it was a period of growth, achievement, and renewed confidence.

Kanchan Kumari
TE IT

Kanchan believes that guidance often comes from elders—be it teachers, parents, or seniors—who inspire and motivate along the way. Her involvement in different committees has encouraged her to try new things, refine her skills, and embrace self-growth, values she credits largely to her seniors. The past 15 days have been particularly enriching, with events that offered opportunities to learn, re-learn, and gain fresh perspectives. For her, exploring different paths not only broadens experience but also brings clarity about future career pursuits.

September was a month of academic success, cultural celebration, and new opportunities. She excelled in her Honours AIML exam and actively contributed to the planning and execution of Garba Night in college, which brought joy and energy to all. The month also included devotional celebrations of Navratri with friends, and she began preparations for the ICATES International Conference in collaboration with IET, gaining valuable exposure to global perspectives in technology and research.

Disha Gupta
TE CSE

As we come to the end of September, we look back at those who changed the world quietly, through determination and courage. **Mileva Marić** was one such woman — a brilliant mind who studied physics and mathematics at a time when very few women were allowed in those spaces. Her love for science and her strength to keep learning, even when society doubted her, opened paths for many who came after.

Though her name isn't as famous as others, her story reminds us that progress is built not just by those who are celebrated, but also by those who never stopped trying. Mileva's journey teaches us to keep learning, to stand firm in what we believe, and to know that every small step toward equality makes the future brighter for all of us.

Albert and Mileva Einstein, 1912

*The world moves forward when courage meets
intelligence.*

*- Inspired by the lives of Rani Chennamma and
Mileva Marić*
