

As the second half of October comes to a close, let's pause to reflect on how much progress we've made together. Every milestone, challenge overcome, and lesson learned has contributed to our collective growth. Let's carry this focus and determination forward, and setting the stage for even greater success ahead.

Janaki Ammal Edavalath Kakkat
20th Century (modern India, 1897-1984)

Janaki Ammal was India's first woman botanist of international fame. Born in Kerala, she defied social barriers of the early 1900s to earn a doctorate in Botany from the University of Michigan. Her major contribution was in cytogenetics—she developed high-yielding, sweeter sugarcane varieties suited to Indian soil, reducing the need for imports. She also worked with C.V. Raman and later became the Director-General of the Botanical Survey of India. Honored with a plant named after her, *Magnolia kobus janaki ammal*, she remained dedicated to research well into her 80s, inspiring generations of scientists.

Cecilia Dinesh
BE-COMPS

After completing her IAT 2 examinations, Cecilia Dinesh dedicated her time to preparing for practicals and viva sessions while simultaneously engaging in research work across multiple subjects including Big Data Analytics (BDA), Major Project, Machine Learning (ML), Blockchain, and NLP. During this period, she also successfully prepared and presented her Major Project titled *RAVEN*, which required extensive research and teamwork.

Despite her demanding academic schedule, Cecilia managed to maintain balance by taking a short family trip. Overall, it was a productive and rewarding phase marked by significant academic and personal achievements.

The second half of October proved to be an eventful and rewarding period for Anjali Walekar. She achieved remarkable academic success by scoring 20 out of 20 in four out of six subjects in the IAT examinations, marking a moment of pride and motivation.

Amidst the festive season, Anjali celebrated Diwali with her family, enjoying traditional Laxmi Poojan, homemade Fharal, and a joyful party hosted by her friend Anushree, creating cherished memories.

Adding to her accomplishments, she actively participated in the CCSP course conducted by Mr. Joe from America, specially organized for Allyn girls. Over ten days, Anjali gained valuable insights into Cloud Security, consistently scored above 14 in daily quizzes, and contributed to a team project that received appreciation from Mr. Joe. She also earned her Oracle AI Professional Certification, making the month a truly fulfilling and successful one.

Anushree Verma
TE CSE

The second half of October was a fulfilling period for Anushree Verma, marked by academic success, festive celebration, and creative learning. She scored 20 out of 20 in four out of six subjects in the IAT exams, a proud achievement.

Anushree celebrated Diwali with lights, Laxmi Poojan, and hosted a cheerful party for her friends. She also enjoyed an outing to Kala Ghoda with her school friends, exploring art galleries and museums.

Amidst these celebrations, she prepared for her viva and practicals while participating in the CCSP course conducted by Mr. Joe from the U.S., organized for Allyn Girls. During the 10-day program, she learned about Cloud Security and helped create a functional MVP for an online quiz platform that earned special appreciation.

The second half of October was a meaningful blend of academics and celebration for Shravni Bandodkar. She successfully completed her IAT 2 exams and also participated in *Sprintnova*, a hackathon that provided valuable experience in teamwork, creativity, and innovation.

Amidst her academic commitments, Shravni celebrated her friends' birthdays and enjoyed the festive spirit of Diwali, which brought joy and positivity to the month. Alongside these moments, she completed a 10-day CCSP course while managing her practical exams. Balancing both proved challenging yet rewarding, as she performed well and gained new knowledge.

Overall, October was a month of growth, learning, and happiness for Shravni, marked by confidence, enthusiasm, and memorable experiences.

Kanchan Kumari
TE IT

The second half of October was a period of dedication and learning for Kanchan Kumari. After completing her IA 2 examinations, she began preparing for her practicals while simultaneously taking part in the CCSP training program. Though it seemed challenging at first, with the constant support of Fr. John and her professors, Kanchan successfully embraced this new learning journey.

Through this experience, she learned the importance of managing multiple responsibilities with determination and courage. Her practical exams went well, and amidst her busy schedule, she also joyfully celebrated Chhath Puja—a festival deeply close to her heart.

Kanchan's month was a testament to perseverance and faith, proving that every "impossible" truly has "I'm possible" within it.

The second half of October was both hopeful and energizing for Rebecca Celine Sam. She was delighted to receive her IAT scores, which turned out better than expected and boosted her motivation and confidence.

She also celebrated her birthday with friends over a simple lunch filled with laughter, good conversations, and heartfelt moments — a reminder of how lucky she is to have such supportive people around her.

Another highlight was SprintNova, the college hackathon, where she explored web development and collaborated closely with her team. The event was intense yet enjoyable, helping her value teamwork, communication, and creative problem-solving.

At the same time, the CCSP course and practical exams began, making the schedule quite hectic. Balancing both taught her to stay organized, prioritize tasks, and manage time effectively.

Overall, the latter half of October was a period of growth, learning, and meaningful experiences, leaving Rebecca more confident and ready for the challenges ahead.

Certified Cloud Security Professional (CCSP) Course

The Certified Cloud Security Professional (CCSP) course was conducted from 24th October to 1st November, under the guidance of Father Joe from America, and was suggested by Father John Rose. The week-long program provided in-depth insights into Cloud Architecture, Data Security, and Application Security. Father Joe's vast experience and interactive teaching made the sessions engaging and enriching. Students also worked on short-term projects, which were demonstrated on 30th October and finally submitted on 1st November. The projects were highly appreciated for their creativity and effort within a short timeframe, making the course a valuable and memorable learning experience for all.

For the One Who Inspires Us Always

On **26th October**, the students joyfully celebrated the birthday of our beloved **Fr. John Rose**. The celebration was filled with warmth and happiness as students brought a cake to express their love and gratitude. Fr. John's gentle nature and inspiring guidance have always been a source of motivation for all of us. His smiling presence made the day truly special. We wish him abundant blessings, good health, and happiness in the year ahead.

“Don’t wait for opportunities to be handed to you create your own path with courage and belief.”

— Indra Nooyi
