

September reminds us that transformation is often quiet. As the air turns crisp, it invites us to pause, reflect, and realign our goals with our values. Progress isn't always loud — it's found in small, consistent steps and quiet courage.

Courage and perseverance are timeless.

Velu Nachiyar, the queen of Sivaganga in Tamil Nadu, faced immense adversity nearly 80 years before the Revolt of 1857. After losing her husband in battle, she regrouped, trained herself in combat, and built an army. She formed strategic alliances, gathered intelligence, and bravely recaptured her kingdom, even employing bold tactics like the first recorded suicide attack in Indian history.

This September, let's celebrate progress with grace, embrace creativity and courage, and step into the new season with clarity, commitment, and purpose.

Shravni Bandodkar
TE COMPS

Shravni had a productive and fulfilling first half of September. She balanced academics and her mini project after the midterm break, enjoyed quality time with family, and actively contributed to the upcoming Allyn Girls event preparations. She also gained confidence through an internship interview and celebrated completing a Coursera certification, which motivated her to keep learning. Overall, it was a month of growth, teamwork, and cherished memories.

The first half of September was a vibrant mix of celebration and growth for Anjali. She took part in the joyful Ganpati Bappa visarjan, cherishing quality time with family and friends.

On the academic front, she attended the Allyn Girls orientation, where Fr. Dr. John Rose introduced a new course and shared insights about the initiative. She also appeared for a graphic design interview conducted by Sophia University, Japan, gaining valuable experience.

Additionally, Anjali and her team successfully presented their project idea for the Smart India Hackathon (SIH) on September 12th—marking a proud moment of innovation and teamwork.

Anushree Verma
TE CSE

Anushree's September opened with moments of celebration and steady progress. She visited a friend's home for Ganpati darshan, enjoying festive moments and time with friends.

She attended the Allyn Girls orientation, where Fr. Dr. John Rose introduced the initiative and a new course. Anushree also appeared for a graphic design internship interview conducted by Prof. Tad Gonsalves from Sophia University, Japan.

Her team successfully presented their idea for the Smart India Hackathon (SIH) on September 12th. Alongside this, she maintained her LeetCode streak, reaching Day 198, and completed all pending academic tasks on time.

The first half of September was busy and productive for Angel. Along with regular college assignments, she prepared for the Smart India Hackathon, which involved extra effort, team coordination, and long hours of planning. She successfully completed her internal hackathon round and is now awaiting results positively. Despite the workload, she balanced academics with personal time and enjoyed quality moments with friends.

Alvina Parmar
TE CSE

From September 1st to 15th, Alvina focused on both project work and academics. She worked on her Sign Language project and simultaneously prepared and presented for the Smart India Hackathon. She also participated in a group discussion in class on the topic of social media influencers, which was conducted as part of the internal marks assessment. Additionally, she appeared for an internship interview opportunity offered by Prof. Tad Gonsalves from Sophia University. Alvina also ensured that she completed all her pending experiments and assignments on time.

The first half of September was filled with vibrant experiences and meaningful activities for Purva. She began the month by celebrating Ganpati and later participated in the traditional Visarjan, which was both joyous and spiritual. On the 12th of September, she, along with her team, participated in the Smart India Hackathon (SIH) where they presented their project and gained valuable insights and learning through the process. As part of her environment science subject activity, Purva had the opportunity to visit Sanjay Gandhi National Park, where she explored and appreciated the beauty of nature. Balancing academics with such enriching experiences made these two weeks truly memorable and fulfilling for her.

Disha Gupta
TE CSE

September was a month of devotion, achievements, and meaningful contributions for Disha. She proudly received her IAT results, which reflected her hard work and encouraged her to keep improving academically. As a member of the Cultural Committee, she had the opportunity to actively contribute to the Teachers' Day celebration. It was a rewarding experience for her to successfully organize the event and honor mentors with creativity and teamwork. Spiritually, the month was filled with devotion as she joyfully celebrated Anant Chaturdashi with family and friends, cherishing the traditions and festive spirit. Overall, September has been a blend of academic milestones, cultural involvement, and festive celebrations, making it both fulfilling and inspiring for Disha.

Allison attended the novenas to Our Lady and joined in the celebration of the feast, marking a meaningful start to September. She completed the “AI For You: Training and Assessment” course on Oracle. On September 8th, she celebrated Teacher’s Day in college with professors and peers. Along with her teammates, she participated in the Smart India Hackathon (SIH). She balanced academics with extra-curricular activities and concluded the fortnight by celebrating the Feast at Mount Mary’s, Bandra with her family.

Sanvi Sawant
SE-COMPS

This month so far has been truly special for Sanvi as she got the opportunity to experience and learn so much. One of the highlights was being part of the Smart India Hackathon, which taught her valuable lessons in teamwork, problem-solving, and creative thinking while helping her grow her technical knowledge beyond academics. She was also happy to be selected as the Event Manager MOD of the Technical Committee, which she sees as a great chance to contribute, take part in organizing activities, and improve her skills along the way. Alongside these achievements, Sanvi cherished celebrating Ganesh Chaturthi in her village with her family and visiting famous pandals like Lalbaugcha Raja, which made the festival even more memorable and meaningful. Overall, she had a great time during the first days of this month and is excited for what the rest of the month has in store.

CONGRATULATIONS BHANAVI PANDEY

**For getting Selected for Internship at
ICAM, France**

Best wishes for your journey ahead!

Just as September teaches us to pause, reflect, and trust the process, Velu Nachiyar shows that setbacks can become stepping stones. Her story embodies quiet courage, strategic leadership, and perseverance — reminding us that women have always shaped history.
