# IT INSIGHTS 2019-20

- An insight to the happenings in the IT department.

## Vision of XIE

To nurture the joy of excellence in a world of high technology.

## Mission of XIE

To strive to match global standards in technical education by Interaction with industry, continuous staff training, and Development of quality of life.

---

## About the Department

The Department of Information was established in 2005 and offers a Bachelor in Engineering in IT. The department has well trained staff that offers teaching and learning with well-equipped computer laboratories. Excellence is the hallmark of all that is taught by a well –qualified faculty.

IT is an exciting and evolving field that offers many and varied career opportunities. IT curriculum includes advanced courses on Artificial Intelligence, Data warehousing & Mining, Big-data Analytics, image processing along with core computer subjects like Data structures, operating systems and DBMS.

This degree provides students with excellent preparation both for graduate study in IT and for employment. Our major recruiters include Tech-mahindra, Mastek, L&T Infotech, Infosys, Accenture, Capgemini , Amazon and many more.

The Jesuit tradition emphasizes excellence as a level to be reached in study and employment. The department of IT continues this noble tradition.

The laboratories in the department have the latest machine configuration and full internet access enabling the students to perform the experiments with ease. We have some proprietary software and encourage the students to use open source tools wherever possible.

---

## **Vision of Department of Information Technology**

To nurture the joy of excellence in a world of Information Technology.

## **Mission of Department of Information Technology**

M1.To develop critical thinking ability of students by promoting integrative learning.

M2.To bridge the gap between the industry and institute by giving students exposure to industrial demands and current trends.

M3.To promote excellence in learning and research, and to be responsible when dealing with social concern.

M4.To encourage students to pursue higher studies and make them aware of various career opportunities.

## **Program Education Objective**

a. Information Technology engineering graduates will be employed as IT professionals, and will be engaged in learning, understanding, and applying new ideas and technologies as the field evolves.

b. Information Technology engineering graduates will be competent to use knowledge successfully in the diversified sectors of industry, academia, research and work effectively in multidisciplinary environments.

c. Information Technology engineering graduates will be aware of professional ethics and create a sense of social responsibility in building the nation/society.

## **Program Specific outcome**

I. To demonstrate the ability to analyze and visualize the business domain to formulate appropriate information technology solutions.

II. To apply various technologies like Intelligent Systems, Data Mining, IOT, Cloud and Analytics, Computer and Network Security for innovative solutions to real time problems.

## **Message from Director**

### **Fr. (Dr.) John Rose S.J.**

~ Everyone in XIE is bound to be delighted that the Department of Information Technology is bringing out its Departmental Newsletter. This will certainly help the Department to make known the creative and technical activities it has been indulging in: to make difficult courses easy to understand, to encourage

the broadening of minds, and to direct the heart to people that remain at the outer circles of society. The teaching faculty has been demanding without the making of threats, and the students have not taken undue advantage of its kindness and understanding by taking it easy but, rather, by making the effort to discover the truth by themselves and own it. Besides, there has been strong competition among the students with regard to grades and prizes, but none were achieved by the omission of fair play and honesty. The Newsletter will help to document the activities and achievements of all the persons involved. On the one hand, it will develop the talent of writing which is as important as the rhetoric of speech, for any truth that is grasped demands that it also be communicated, not kept within one's own bosom. On the other hand, the truth of what is documented inspires its readers to grasp its further implications and, through reflection and further research, deepen its impact on society. Where there is truth there is also goodness and beauty, and all these transcendental can be felt through the Newsletter.

It is evident that the Department is not limited to its own concerns but has the largeness of mind and heart to include the whole of XIE. It has furthered the documentation culture of this Institute. It has demonstrated what teamwork is. For these and many other counts all those in the Department have our gratitude and congratulations. They cannot but be blessed in every way.

### **Message from Principal Dr.Y.D Venkatesh**

~My wishes and appreciation for all the efforts put by the editorial board of the Information Technology Department and bringing out this Newsletter to the forefront. This edition of the Newsletter 2019-20, reports on the most significant activities that are carried out by our Faculty, Students, and our Alumni in the area of Teaching-Learning, Research and Development

along with Industry-Institute Interaction.

This newsletter is a medium, to bridge the gap between achievements and the publicity. The Faculty and Staff of the Department of Information Technology strive to produce technically competent and socially responsible graduates. The department of IT has been well developed with laboratories to provide practical exposure in the field of IT practices. The department thrives to support and develop research culture, consultancy and enhance entrepreneurship skills among all our students.

Innovation and creativity are fundamental to all academic disciplines and educational activities. To build up and inculcate these creative habits and to stay appraised with the current requirements and meet the demands of industry, the department of Information Technology is conducting workshops on various subjects such as coding, programming, Internet Of Things, Machine Learning, Spoken Tutorials, Python, Robotics, and Artificial- Intelligence to name a few.

The department also works to build-up industry-Institute linkage. It helps to provide good placements and brings in real-world exposure to our students. Programmes such as 'Career Booster' and 'Industrial Visits' are organised to fill this gap. The department also encourages, involves and supports students to participate in various Co-curricular and Extra-Curricular activities. In addition, it arranges 'yoga sessions', 'blood donation' camps and 'no to plastics' programmes to understand the environmental requirements and responsibilities. These programmes will bring awareness to all our students on social well being and living together with societal needs.

Signing off with a quotation "If you want to go fast, walk alone, but if you want to go far, walk together". The Department of IT follows the later part to achieve its goal.

With good wishes and blessings.

## **Message from Head Of Department Prof. Chhaya Narvekar**

~ It gives me immense pleasure to present the first edition of the annual newsletter IT Insights by the department of Information Technology, XIE. The department is committed towards the improvement and consistency in academic and placement performance of the students and meets the needs of all the stakeholders. One of our greatest strengths is our highly qualified and dedicated faculty members and staff. Our students are always eager to improvise their skill set. With the constant help and support from the faculties our students are encouraged to participate in various events like project exhibitions, coding competitions, working on live projects, pursue internships in esteemed organizations and contribute to the society through social endeavors. Our faculty and students publish and present their research findings from time to time. I am grateful to our alumni for extending their constant support in keeping us abreast with the latest trends in the industry. I would like to congratulate the members of the editorial committee, faculty members and students to have contributed towards the making of our newsletter IT Insights. We aim at keeping our readers acquainted with the highlights of the achievements of the department.

## Message from Alumni

**Akshata Sawant**

**Senior Solutions Consultant at Apisero**

~ I am extremely honored and take huge pride in calling myself XIE- IT alumni. All the success and opportunities I get today has its roots back in XIE. I've got tremendous support from all the staff in the IT dept.

Being an IT professional, whatever I've learned in those 4 years under the guidance of our beloved teachers has helped me immensely. The placement and the training at XIE was the first step to success! Continuous support from our teachers has helped us to grow and flourish. Thank you once again for everything!

**Alrina Dmello**  
**Software Analyst**

~ Hello Friends!

The day I was told to write something for the college newsletter, I was muddled about what to write. I could not think of better ways to motivate you than telling you my anecdote!

You know the story about how the spider never gave up when it tried making its web or about the turtle winning the race? Life lessons are learnt from these little stories our grandma told us when we were kiddies. I will not tell you what to do and what not, because you already know...You are precious and your teachers, friends and people around you, love you... The institution is because “you” exists. Feel that today, breathe, make a change because, You, my friends, are amazing.

I am going to tell you my story. I joined XIE in 2011, as a fresher to start my engineering career in Information Technology. The college gave me everything I am today. From being a Sports Secretary to sharing an extra-ordinary rapport with my professors to eating all the scrumptious canteen food! We have done it all. The practicalities of what I learnt, the motivation I got from all my teachers and peers made that difference in my life and I will never forget my roots. I used to be a shy kid, could barely do a public-speaking event and neither could I make friends. But eventually, over the years, I was fortunate to find the right set of professors, peers and mentors that gave me encouragement in every step of my career at XIE. From being lonely, I started making friends. “Basketball” became the way of life. Math sessions with my peers and Engineering Drawing classes with our esteemed headmaster was my getaway to happiness. I had a liking towards Electrical Engineering studies. It caught my interest because the way I was taught by my professor was marvelous. I will not brag about how cool our teachers were, because you already know. Our principal was super supportive in every step we took. Slowly, I came out of the bubble I was living in, became friendly and enterprising. Organizing events with my peers to bagging various cultural event prizes became a thing. What I am trying to say here is, we all are special. We have gifts that we sometimes do not seem to realize. We make mistakes but that only helps us grow. I can tell you that what I learnt at XIE is what I use even today in my day-to-day life. I live in Canada now and I am a Software Analyst. I like it here, but I miss going to college and being a kid. That is something that would never leave my being. I remember when I had the exchange program and students from Santa Clara University were hosted by us, it was an experience of a lifetime. I hosted one of the girls and we bonded so well that she came to visit me in Canada this year! Would you believe that would

---

happen if it were not for XIE to organize such an amazing collaboration?

The best part about the college that I loved was our library. No kidding, the library had books ranging from comics to the most astounding books on Literature, Math and Quantum physics. I would spend all day reading while other days, I would be playing basketball. We had so many events during college that we never realized how lucky we were to be a part of such an esteemed institution that gives us the caliber to nurture ourselves and become an “all-rounded” individual.

I would not take much of your precious time, but I would like to tell you, whatever you do in your life, never forget where we belong. “Eyes on the skies and feet on the ground” as my dad would say.

Honestly, I feel like I am one of the lucky students to graduate from this college because it taught me the way of life. It opened doors to so many opportunities that today I am successful and happy because of all those values I learnt. To conclude, I want to say that you are so powerful that you can do anything. You can make a change. And as my favorite author, Deepak Chopra says, it is a world of infinite possibilities, my friends. I hope you have a lovely time at XI

~ My experience at XIE was that of learning, innovation and fun. I passed out from BEIT in the year 2015 and as every other final year college student, was saddened at the thought of leaving college. The 4 years of engineering was exciting, enriching and a time of self

discovery. I did not have a technical inclination prior to my education at XIR. The course of IT helped me get technically sound and aware of the latest advancements. The learnings can be applied throughout life even if not pursuing a technical job role as IT exists in all works of life. XIE truly turned me more confident by giving me opportunities to organize and participate in events along with practical workshops on innovative technologies. I appreciate the work done by the management and especially the Jesuit priests who make the education experience like no other and always pushing the students to do everything for the greater Glory of God.

## **Siddhesh Toraskar**

**Scholar**

**SAP**

~ I am Siddhesh, alumni of XIE from IT department of batch 2015-19. I would like to share my wonderful experience in XIE over the course of 4 years.

Starting with the environment of college which is instinctive and overall staff is extremely friendly.

My first year was a roller coaster ride but it was kind of a sigh of relief because at least I could start engineering without any backlogs. There were times when I felt pretty low in the first year but my teachers truly upheld me including HOD and I never thought back from that point forward.

Talking about the IT department they have a positive vibe which I could sense at the time of lectures. They gave their best especially while dealing with my silly doubts.

Each IT staff has their own splendid side, and they understood me and others very well.

I was only a sapling when I came to the IT department however their sustain helped me develop and extended my underlying foundations in the programming world.

Small details I learnt apart from syllabus is helping me a lot in my career. Characteristics like responsibility for work, regarding time and smoothness in predicament, tidiness in my work I gained from them.

When I was in college I used to feel that sometimes it's a bit too much stress about submissions and lab work. Be that as it may, trust me once I got into corporate I felt college was the period when I had the opportunity to spend on myself to look over my insight and it was never a hindrance in fact it was an ocean of chances. College life was excessively simple contrasted with corporate and it is all conceivable considering the staff, they helped us to develop being our route to an effective engineer.

Follow their direction and your engineering life will be in a decent shape. In spite of the fact that your attitude and approach matter the most toward the end you are an engineer of your own development once you leave the college.

# Seminars and Workshops organized by Department

1. **Mr. Jaychand Upadyay and Ms. Jyotsna More organized a 3-day workshop on “Data at Scale”, on 3<sup>rd</sup> July to 5<sup>th</sup> July, 2019 for faculties of Xavier Institute of Engineering.**
2. **Ms. Sulochana Devi and Ms. Nikita Lemos organized a 6-day AICTE-ISTE Approved STTP on “Enterprise Network Security and Infrastructure Security”, from 24<sup>th</sup> June to 29<sup>th</sup> June 2019.**
3. **Mr. Neil Savant, Founder & CEO, NUOS Home Automation, delivered a guest lecture for TE IT on the topic “IOT-Industry requirement” on 8<sup>th</sup> August 2019 organized by Ms. Meena Ugale and Ms. Jyotsna More.**
4. **Ms. Meena Ugale conducted a 2-day workshop on “Internet of Things using Arduino” on 24<sup>th</sup> & 25<sup>th</sup> August, 2019.**
5. **Mr. Prakash D'mello, Consultant Cyber Resilience at Gorisco, delivered a guest lecture for TE IT on the topic “Cyber Security” on 27<sup>th</sup> August 2019 organized by Ms. Martina D'souza and Ms. Suvarna Aranjjo.**
6. **Mr. Adiya Kumhare, Freelancer movie-maker and script writer, delivered a guest lecture for BE IT on the topic “Entrepreneurship Essentials” on 29<sup>th</sup> August 2019 organized by Ms. Sulochana Devi and Ms. Nikita Lemos.**

- 
7. Ms. Meena Ugale and Ms. Nikita Lemos organized a 6-day AICTE-ISTE approved STTP on “DevOps” on 2<sup>nd</sup> January -8<sup>th</sup> January 2020.
  8. Ms. Meena Ugale and Ms. Nikita Lemos organized an Orientation program on behalf of Mumbai University for "DevOps Lab" on 2<sup>nd</sup> January 2020.
  9. Mr. Sanket Rane, Director of Kori Paati Edutech, Virar delivered a guest lecture on the topic “Placement Preparation” for TEIT on 7<sup>th</sup> February 2020 organized by Ms. Jyotsna More.
  10. Mr. Kiran Bagwe, Senior Site Reliability Engineer & DevOps Architect, Zycus Infotech Pvt Ltd, Mumbai, delivered a guest lecture on the topic “How to be Industry Ready?” for SEIT on 30<sup>th</sup> January,2020 organized by Ms. Sulochana Devi and Ms. Nikita Lemos.
  11. Mr. Amit Sali, Manager, CapGemini, delivered a guest lecture on the topic “Advanced Python” for TEIT on 20<sup>th</sup> September 2019 organized by Ms. Suvarna Aranjo and Ms. Simran Singhani.
  12. Mr. Stefano Alvares, Software Developer at Ocean IT Solutions, Mumbai, delivered a guest lecture on the topic “Project selection guidance” for TEIT on 7<sup>th</sup> February 2020 organized by Ms. Sulochana Devi and Ms. Nikita Lemos.
  13. Mr. Jay Patel, Jr. Data Analyst at August Analytics LLP, Mumbai delivered a guest lecture on the topic “How to prepare for Higher Studies” for SE IT on 7<sup>th</sup> February 2020 organized by Mr. Amit Narote.
  14. Mr. Sidhesh Rane, Cyber Security Analyst at Infosys, Pune, delivered a guest lecture on the topic “Ethical hacking using modern tools” for TE IT on 11<sup>th</sup> March 2020 organized by Ms. Sulochana Devi and Ms. Nikita Lemos.
  15. Ms. Meena Ugale organized 6-Days online workshop on “Experimental Design and optimization of Research in Machine Learning” from 1/6/2020 to 12/6/2020. Resource person Mr. Vijay Katkar conducted sessions and imparted his knowledge on various topics related to machine learning and research. 45 participants benefited with his knowledge in hands-on sessions. Mr. Jaychand Upadhyay played an important role as a course coordinator.

# COMPETITIONS

## Java coding competition for SE-IT

A “Java coding” competition was organized for S.E IT students to boost their confidence for java practical exams and to imbibe a healthy competitive spirit in them.

The competition was held in the Computer Centre, 1st floor, XIE on 27th September 2019 and was organized by Ms. Sulochana Devi and Ms. Nikita Lemos from I.T Department.

Sixty students participated in the coding completion and the objective was to boost the students’ confidence for java practical exams and help them practice and develop their logical thinking.

The coding completion was planned at two levels. The first level was compulsory for all the students and the students who executed the given problem statement in stipulated amount of time were allowed for the second level. The second level programs were more intense and the judgment of the winners was done based on time and code optimization in the program.

Prof. Chhaya Narvekar and Prof. Jaychand Upadhyay judged the competition based on the pre-set guidelines and declared three winners.

The 1st place was secured by Mr. Pallav Savla, 2nd position by Mr. Reetik Gupta and 3rd place holder was Mr. Baljot Singh Kohli. The winners were later felicitated with a token of appreciation by the Director Fr. Dr. John Rose SJ and Principal Dr. Y.D Venkatesh.

# IOT Mini-Project Exhibition for TE-IT

The Mini-Project exhibition of T.E.IT students on the SEM V subject of Internet of Things was arranged on 17<sup>th</sup> October 2019 at 9:00 am.

Total 25 IoT projects were exhibited by TE-IT students which are designed using Arduino Mega, Raspberry Pi, different sensors, WIFI & Bluetooth connections etc.

XIE students from F.E. to B.E classes and faculties from different departments visited and encouraged the T.E.-IT students.

## **Top 3 projects in the exhibitions:**

1. **Smart Plantation & Irrigation-** Saumya Deshmukh, Shriti Karkera, Prachi Rawale
2. **Automatic Floor Cleaner-** Vedant Prabhu, Omkar Gorhe, Mukesh Parmar
3. **Smart Grass Cutter** – Rohan Mathur, Achal Kalwar, Shubham Chavan

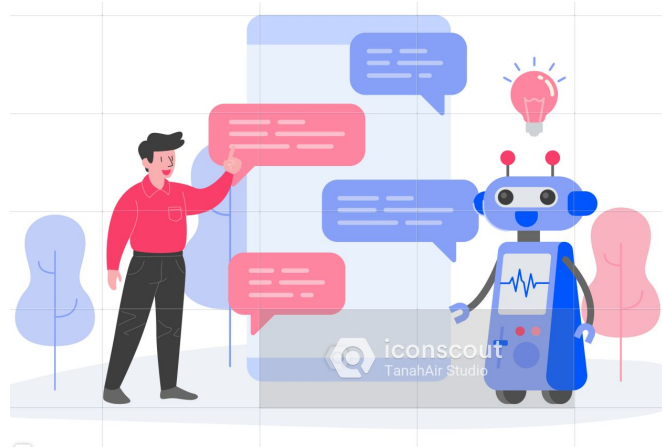

**Top 3 projects are felicitated by Certificate of Appreciation.**

# AI based ChatBots Project Exhibition for BE-IT

The Department of Information Technology organized a Project Exhibition on Artificial Intelligence based ChatBots for the final year students of the department concerning their subject Artificial Intelligence, under the guidance of Prof. Simran Singhani.

The AI based ChatBots Project Exhibition was held on October 18, 2019, from 11:00 am to 1:00 pm, in Seminar Hall, Second Floor.

Prof. Teena Verma and Prof. Omprakash Yadav were invited to judge and decide the winners of the AI Project Exhibition.

Four groups were awarded with certificates.

1. **Krishi-Mitra AI based Chatbot for agriculture FAQ**- Joshi Rohan, Paranjpe Rohan and Purohit Hiralal
2. **Emergence Management ChatBot** - Moku Manohar, Rane Kedar and Waghela Hiren
3. **Desi Café ChatBot** - Bhogate Aditya, Shetty Shashank, Vaste Prathamesh
4. **Restaurant ChatBot** - Annaldas Divya, Khot Sayali, Naik Madhuri

Internet Programming syllabus gives students hands on by developing mini projects. Outcomes of this course enables students to design a basic website using HTML5 and CSS3 to demonstrate responsive web design and implement dynamic web pages with validation using JavaScript objects by applying different event handling mechanisms. Also Use AJAX Programming Technique to develop RIA

Exhibition was held on 22<sup>nd</sup> Oct 2019. 27 groups participated in the exhibition. Ms. Suvarna Aranjo and Mr. Vijay Jumb were the judges for the event.

Winners for the exhibition were:

1. **Digital Video Game** – distribution- Smit Nawar, Ritik Kothari, Siddharth Kothari
2. **Online Media Service Provider**- Kamal Maharana, Afzal Ahmad, Vishal Methri
3. **Student Procurator System**- Saumya Deshmukh, Shrishti Karkera, Prachi Rawale

# Webinar on Enhancing Career with Entrepreneurial Opportunities

The webinar was about knowing the career opportunities where Mr. Neil Savant (CEO and Founder of NUOS) answered the questions and cleared the various doubts students had come up with. This was planned for all the students of XIE during the period of lockdown to engage and motivate the students.

The students were asked to register on an online link/form which was shared by Prof. Jyotsna More. 66 students registered for the webinar out of which 30 students participated. Webinar was conducted using the Zoom application. At the beginning of the session, Fr. (Dr.) John Rose, Director of XIE, and Prof. Chhaya Narvekar, motivated the students to make use of the opportunity to solve their doubts. Then, the faculty coordinator Prof. Jyotsna More introduced the students to Mr. Neil Savant. Later on, he gave the students a brief overview about the session. He told the students about the trends in industry related to IOT and gave an overall in-depth knowledge of what is entrepreneurship and what are its pros and cons.

Later on, the session was open to students as well and they came up with their doubts and questions which were solved by Mr. Neil very effectively. The session was quite informative for the students.

On behalf of XIE, Prof Jyotsna More expressed the gratitude to Mr. Neil Savant for guiding the students in the webinar session.
