

## Beach Cleaning at Mahim Beach.

DATE: 28/09/2019

### Event Coordinator(s)

1. Mr. Vijay Jumb

### Student Coordinator(s)

1. Mandar Bagwe

2. Archana Sahoo

### Time & Place:

7:15 am-9:15 am,

Mahim Beach.

### Department:

NSS

The event was started early in the morning around 7:15 am and the officials were guiding the students and also other citizens regarding the cleanup. Our college group of NSS students reported 10 minutes before event started and the officials were providing the students and others gloves and masks for cleaning the beach. Our students collected around 1 ton non-degradable waste like plastic bottles, tins, milk packets, plastics sacks, etc. The cleanup was conducted for two hours and then the event organizer concluded by saying few words of how much day by day waste is being deposited on beaches/sea shores and how its causing harm to aquatic life as well as also causing problems to us, human beings.

Event Mahim Beach cleanup was handled and organized by Mr. Indranil SenGupta and Mrs. Rabia Tewari, which have been felicitated by UN Environment.

They carry out such cleanups frequently and are targeting of completely making Mahim beach clean and hygienic as it was once before, so they can continue such cleanups along with other beaches also. Also they create awareness publically by doing so and people also do come to support them by giving their contribution in cleaning the beach.

Such cleanups are done different days at different sections of Mahim Beach. As our college group of NSS students gave their contribution for cleanup various other units of NSS do come to participate in this movement.
