**Time & Place: Manori
village, Malad**

Department: NSS

No of participant:

47

The volunteers gathered around 7:45 at Malad Railway Station and then reached Manori village via ferry around 8:45.

Tree plantation drive was organized by the Clean We Go NGO at Param Pujya Gagangiri Maharaj Aashram Charitable Trust.

Volunteers were aided and guided by Program officer and volunteers from the Thakur college NSS Leadership Training Camp.

After breakfast the volunteers were led to the nursery. 48 volunteers worked tirelessly until lunch around 2:00pm, few digging up the mud, few filling the sapling bags and rest were aiding in transporting and arranging the ready saplings. Around 200 saplings were made. Few volunteers even planted around 5 saplings that were ready.

After lunch, the volunteers were addressed by the member of the ngo that supervised the drive on the importance, necessity and benefits of tree plantations and urged volunteers to plant at least 3 saplings each in their housing societies.

The volunteers left with a satisfaction in hearts and minds for having contributed towards the restoration of our city's greenery and good health.

A part from environmental benefits the drive also encouraged the spirit of team work among the volunteers.
