1. Mr. Naveen Kukreja
2. Mr. Chirag Panchal

Student Coordinator(s):

1. Mr. Anurag Yadav
2. Mr. Baljot Singh Kohli
3. Ms. Sharon Thomas

Time & Place:

17th October, 2021 onwards on MS Teams,
6PM-9PM

Department:

Computer Engineering
Information Technology
Electronics and Telecommunications

No of participants: 29

.NET training and internship program was carried out under professor Chirag Panchal from CMP Infotech for the registered students in the course. The lectures began on 17th October, 2021 till 26th October, 2021. The sessions began 6PM onwards. The learning began with introduction to basic programming concepts from scratch such as need for programming, inventors of different languages and the rise of programmers in the various domains of the industry.

The training was carried out using C# programming language. Concepts on object-oriented programming such as constructors, encapsulation, inheritance, polymorphism, abstraction were taught in depth to the students. The general syntax of C# was taught and how objects, static methods and functions work in C#. The students were given examples with use cases and time to practice out their own understanding of the concepts by the faculty.

The next part of the training included how to design a static webpage in .aspx via C# using various components such as text fields, buttons, forms etc. The transmission of data to send queries and responses was done using a secure HTTP protocol. The students were also taught how to add validation controls to make their forms more responsive and dynamic for the user.

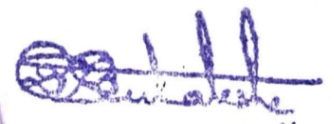

The last part of the training included connectivity with the database, MySQL. The data received was stored in the database using CRUD operations. The students learnt to write queries to view and operate on the data as per the user requirements.

The sessions were successfully conducted and received an overwhelming response from the students. Every student was assigned a one-month project as a part of the internships by CMP Infotech. The examination was conducted on 12th December, 2021.

Images (if Any)

The image shows a screenshot of a development environment. In the foreground, a Notepad window is open with the following text:

```
1) Disconnected -select-bulk of data
2) Connected - insert/delete/update
```

The background shows Visual Studio Code with a C# file open. The code includes a `Page_Load` method:

```
using System;
using System;
using System;

namespace OurWebsite
{
    public partial class Page_Load(object sender, EventArgs e)
    {
    }
}
```

The Notepad window also shows a search for `dataset` in the code, with a yellow highlight under the word.

The screenshot shows Visual Studio with a web form in design view. The form contains several input fields with validation errors:

- Enter User ID:** No error.
- Password:** No error.
- Confirm Password:** Error: "Please confirm the password.Password mismatch."
- Age:** Error: "Invalid Age"
- Date:** Error: "Date can not be greater than today's date". A calendar is shown for October 2021.
- asp:RegularExpressionValidator:** Error: "Numbers & Symbols are not allowed."

The Properties window for the **RegularExpressionValidator1** is open, showing the following properties:

- (ID): RegularExpressionValidator1
- AccessKey:
- BackColor:
- BorderColor:
- BorderStyle: NotSet
- BorderWidth:
- ClientIDMode: Inherit
- ControlToValidate: txtCheckString
- CssClass:
- Display: Static
- EnableClientScript: True
- Enabled: True
- EnableTheming: True
- EnableViewState: True
- ErrorMessage: Numbers & Symbols are not
- Font:
- ForeColor: Red
- Height:
- SetFocusOnError: True
- SkinID:
- TabIndex: 0
- Text:
- ToolTip:
- ValidateRequestMethod: Inherit
- ValidationExpression: ^[a-zA-Z]+

The bottom status bar shows the time as 07:55 PM on 23-10-2021.

A vertical column of circular profile icons for various users, including:

- palayshubham09
- Mihir Dichwalkar
- Mohammad Saaim
- syerruwar

Microsoft AI – 900 training and internship program was conducted by Prof. Chirag Panchal from CMP Infotech. Initially the discussion on the paper pattern and the needed approach was discussed. As the session progressed the real learning began. The lecturer cleared all the basic concepts needed for the course, which included basic python and the introduction to AI and its applications in various fields such as finance, customer service, health care, manufacturing etc.

As the session advanced, students were taught in depth about AI using Azure services, with credits assigned for the team, practical were conducted on the same platform. Simultaneously theory was also introduced. Topics such as anomaly detection, computer vision, natural language processing, knowledge mining workloads, conversational AI workloads etc. were covered. In support for these practical azure programs were implemented. Also, basic data processing using azure was taught, the concept of pipelining, virtual machine was also covered.

In addition to all this, more generalized topics such as guiding principles of AI were discussed. Then students were introduced to machine learning, here clustering, regression and classification was introduced, various examples on the same were discussed. Practice of examination questions was simultaneously conducted. Feature selection, algorithm selection was discussed in detail along with practical examples. Students were expected to construct ML workspace using azure services, design a pipeline regression demo, deployment of the model. Deletion of resources, classification of model was demonstrated too.

The sessions were successfully conducted and received an overwhelming response from the students. Every student was assigned a one-month project as a part of the internships by CMP Infotech. The examination was conducted on 22nd October 2021.

Images (if Any)

The screenshot shows the 'Performance' tab of the Custom Vision interface. On the left, there is a sidebar with 'Iterations' and a 'Probability Threshold: 50%' slider. The main area displays 'Iteration 1' with the following details: 'Finished training on 10/7/2021, 7:44:03 PM using Food domain', 'Iteration id: 30e74180-e51f-4c71-958f-64a9334a3853', and 'Classification type: Multiclass (Single tag per image)'. Three donut charts show performance metrics: Precision at 100.0% (purple), Recall at 100.0% (blue), and AP at 100.0% (green). A 'Get started' button is visible in the bottom right corner.

Object Detection

Model is trained to recognize individual types of object in an image, and to identify their location in the image

The image shows a virtual machine interface with two main windows. The left window is Visual Studio Code, displaying a Jupyter Notebook titled '07 - Text Analytics.ipynb'. The notebook content includes:

```
staff
courtyard

()

The key phrases can help you gain an understanding of the most important talking points in each review. For example, a review containing a phrase "helpful staff" or "poor service" can give you an indication of some of the main concerns of the reviewer.

Determine Sentiment

It might be useful to classify the reviews as positive or negative based on a sentiment score. Again, you can use the Text Analytics service to do this.

# Use the client and reviews you created previously to get sentiment scores
sentiment_analysis = text_analytics_client.sentiment
(document=reviews)
```

The right window is titled '01: AI-900 Lab 01' and shows a 'Welcome!' message with the following instructions:

1. Sign in with the password `Pa55wrd.`
2. To complete this exercise, you will need to bring your own Microsoft Azure subscription. If you don't already have one, you can sign up for a free trial at <https://azure.microsoft.com/free>
3. Access the Azure Portal at <https://portal.azure.com/#home>

A tip box states: 'This Lab supports **Redirect Clipboard** functionality in addition to `TypeText`. You can use **Redirect Clipboard** to quickly input code blocks and other strings from the Instructions and elsewhere into the virtual machine using standard copy and paste from your local machine's Clipboard directly into the VM. You may need to click **Allow** in your browser to allow access to your local Clipboard.'

Below the instructions is a section titled 'Get latest files'.

The background of the VM shows a Windows taskbar with the time 8:07 AM on 10/8/2021. On the right side, there is a grid of user avatars with names and IDs, including '201902038.rahul...', 'adityawaichol', 'shubham.bhattach...', 'ML', 'R', 'K', 'D', 'A', 'S', 'SN', 'Sushree Nadiminty', 'abbheksinghq10', 'Vineet Dabholkar', 'Redstone Maniac', 'shaun2001xx', 'Mitesh Rega', and 'Krishna More'.

Industry Internship Cell, XIE has conducted a training and internship program for Java from 20th September 2021 on Microsoft Teams Platform.

The trainings were conducted in 1 batch containing around 60 students from Wednesday to Saturday at 5:30 pm to 9:30 pm. These trainings introduced students programming using Java. Concepts like Java fundamentals, data types, variables, expressions, flow control, Object-oriented programming and to compile and debug the code all these covered in training sessions.

After training sessions MTA certification exam was conducted on 4th December. Following the exam the students were provided with 1 month internship opportunity for which the students need to develop a project in the duration of 1 month. Students were from Second year and Third year Computer Engineering, Information Technology and Electronics and Telecommunication Engineering departments.

These students have completed 40 hours of training and successfully their Microsoft Certification in Java. Java mini projects were assigned to all the students to get hands on with practical knowledge. The certificate is globally recognized by all I.T. firms.

Industry Internship Cell of XIE Conducted Python training and internship program, online mode for the students of XIE from 20th September 2021 to 30th September 2021.

There were a total of 54 students under python training. The training was conducted for 2 weeks from 20th sept every Monday and Thursday. Students from all three department Computer science, Information technology and Electronics and telecommunications had participated in the training program.

After the training was complete everybody had to give the certification exam for python which was conducted on 18th October 2021.

Following the training and certification exam the students were provided with one month internship opportunity for which they had to develop a project in the duration of a month.

These students have completed 40 hours of training and successfully completed their Microsoft certification in python. There students were assigned mini projects in Python.

The certification is globally recognized by I.T. firms.

Common for all departments

No of participants: 38

Microsoft SQL training and internship program was carried out under Mr. Chirag Panchal from CMP Infotech for the registered students in the course. The lectures began on 20th September, 2021 till 10th October, 2021. The sessions began 5.30 PM to 9.30 PM. The learning began with introduction to basic programming concepts of Database with the help of SQL Server which is a relational database management system from Microsoft.

The training was carried out using SQL programming language used for Relational Database System. Concepts on SQL programming such as concept of RDBMS, Introduction and component of SQL server were taught in depth to the students. The students were given examples with use cases and time to practice out their own understanding of the concepts by the faculty.

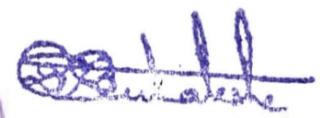

The next part of the training included Basic data types also Creating databases and tables. After that students were studied about the SQL queries i.e. Select, Insert, Delete, Update & Alter table queries with the Select--Where clause. In the next session there was Concatenation and Calculation concept of columns, then various types of operators. The last part of the training included Aggregate functions, the various types of joins and different Constraints in SQL. The Training session end with the study about Database Administration.

In overall session, students studied that the system is designed and built is to manage and store information also It supports various business intelligence operations, analytic operations and transaction processing

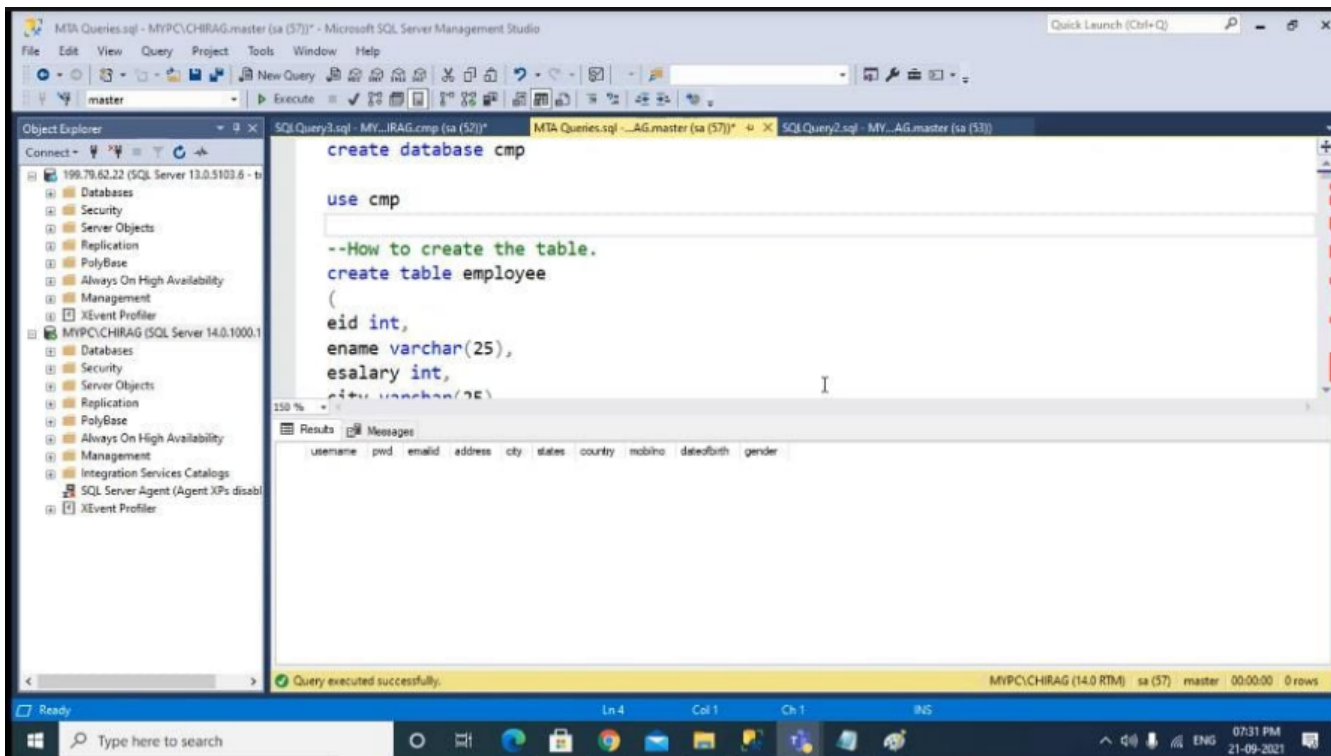

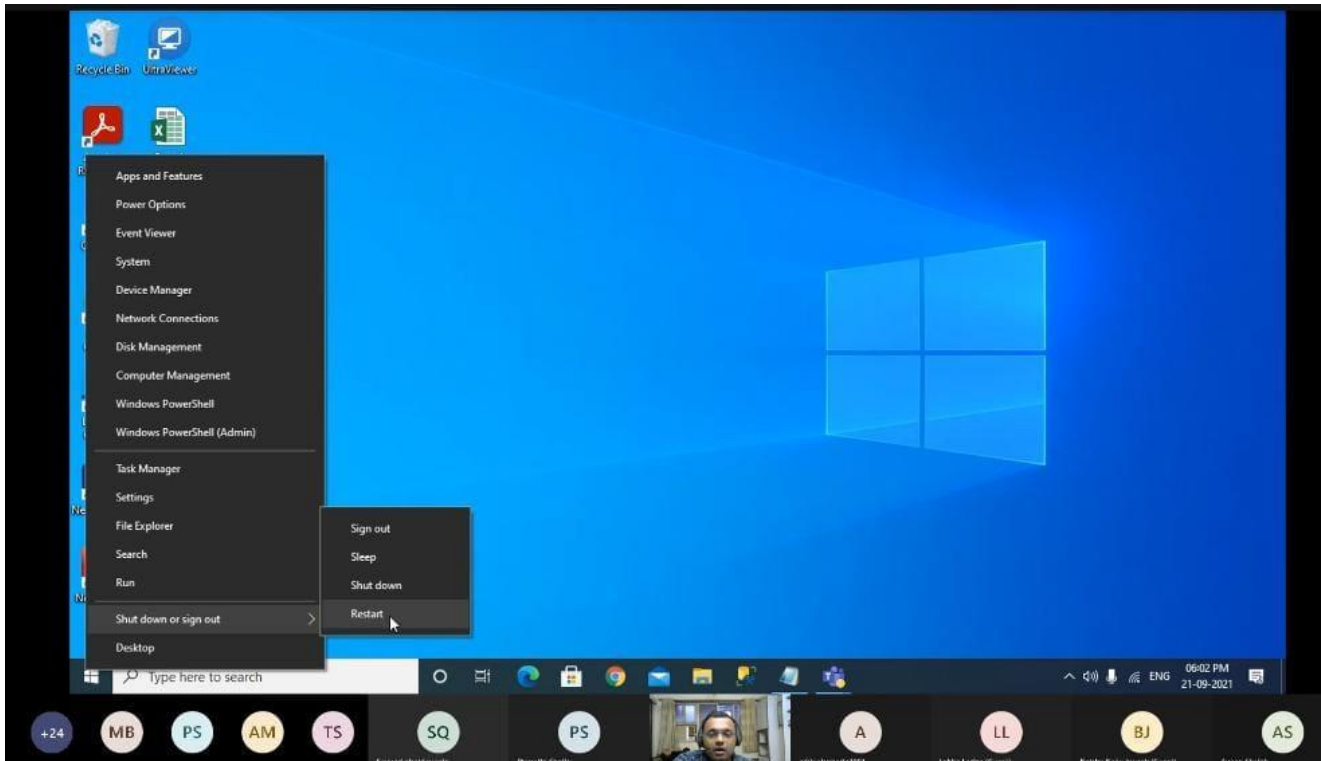

The sessions were successfully conducted and received an overwhelming response from the students. Every student was assigned a one-month project as a part of the internships by CMP Infotech. The examination was conducted on 21st October, 2021.

Description of EVENT

The session was conducted for students of Third Year by Mr. Chirag Thakkar, for their placement training of Aptitude, Group Discussion and Interview that they will face during their Final Year.

This session was first of its kind as it was completely conducted on the zoom platform due the ongoing pandemic situation. Various topics related to placements aptitude was taught such as profit and loss, percentage based, composition and etc. The topics were explained in detail through PPT's and QnA rounds. A pdf workbook was provided to the students in which various types of related sums were provided. An online website was also provided which contained 30 sets of exam to prepare for placements aptitude after the course is over.

Description of EVENT:

Quantiphi pre-placement talk was conducted for final year students through the Online Meeting Platform of Zoom. The Webinar was held on **5th of August, 2021**.

All the information regarding the Quantiphi placement drive process including eligibility criterias were shared with the students. As per the Information provided in the webinar, students will be selected through the recruitment process to be lined up on 5th and 6th of August , 2021. The package would be of 8.5 LPA.

Online Tests will be conducted on 5th August 2021 at 11:00 AM after the pre placement talk.

Process :

1. **Aptitude test**
2. **GD for Business Analyst shortlisted students**
3. **Technical Interview 1 for Technical role shortlists.**
4. **Technical Interview 2 for Technical role shortlists.**
5. **HR round for business analysts and tech roles.**

Student Feedback and Benefits:

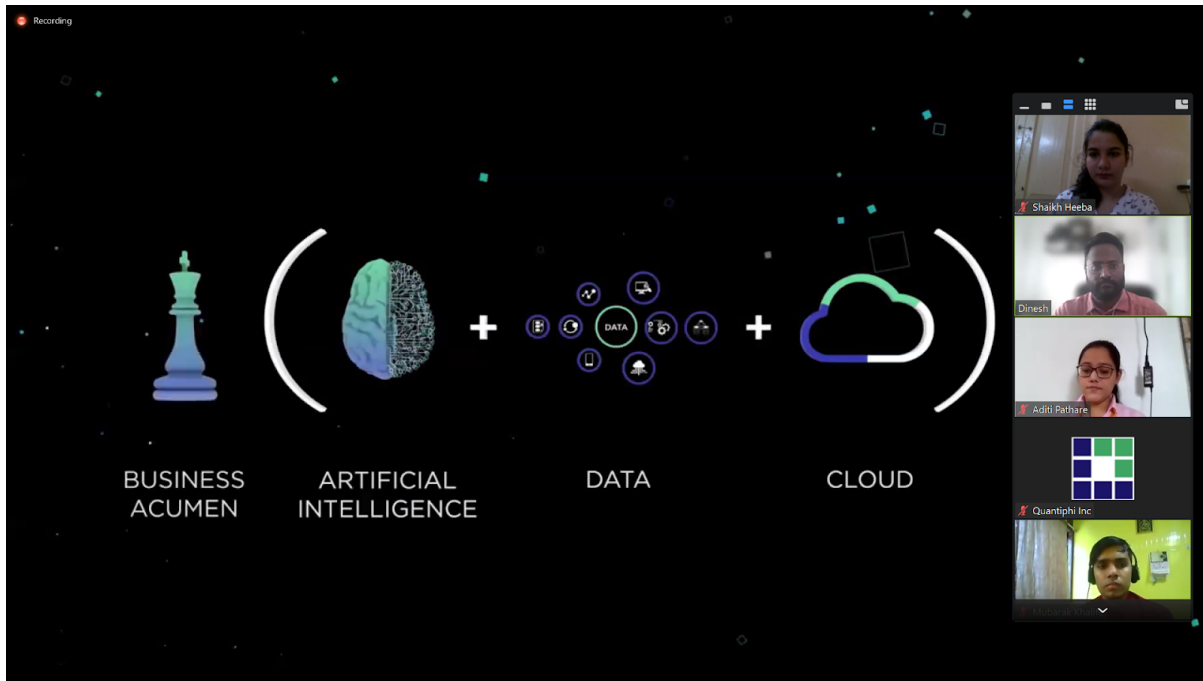

· Students were made aware of the eligibility criterias and the role they receive based on the aptitude results.

Description of EVENT:

Brillio pre-placement talk was conducted for final year students through the Online Meeting Platform of Zoom. The Webinar was held on **1st September, 2021 at 11:00 AM.**

All the information regarding the Brillio placement drive process including eligibility criterias were shared with the students. As per the Information provided in the webinar, students will be selected through the recruitment process to be lined up on 1st September 2021. The package would be of 5 LPA.

Online Test will be conducted on 1st September 2021 at 12:00 PM and will be open till 7:00 PM after the pre placement talk.

Process :

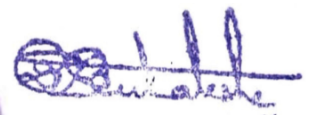

1. **Aptitude test**
2. **Group Discussion for shortlisted students.**
3. **Technical Interviews for shortlisted students**
4. **HR round.**

Student Feedback and Benefits:

· Students were made aware of the eligibility criterias and the role they receive based on the aptitude results.

Report By:

Sharon Thomas

Description of EVENT:

TCS pre-placement talks were conducted for final year students through the Online Meeting Platform of Webex. The Webinar started at 11:05 AM.

All the information regarding the TCS placement drive as well as Online Competitions organized by TCS Campus Commune were shared with the students. As per the Information provided in the webinar, students will be selected through,

1. CodeVita: An Online Programming Competition organized by TCS. There will be Three Rounds of coding. Students who will clear all the rounds will be selected for the Interview. OR

2. Ninja and Digital Online tests: The following sections will be covered in this Online test for selecting students.

1. Aptitude (Quantitative, Verbal, and Technical).
2. Programming.

Online Tests will be conducted at two levels.

• (Level 1) Ninja Test Paper (90 mins) : All the registered students can appear for this Level of Test.

• (Level 2) Digital Test Paper (120 mins): Students who will clear the Ninja Test Paper will be qualified for this Level.

The Online Meeting was concluded at 1:30 PM.

Student Feedback and Benefits:

The webinar was concluded 1:30 PM.

• Students who will clear the Ninja Test Paper i.e Level 1 will be selected for the Interview in which they will be offered an annual package of 3.36 LPA.

• Students who will clear both the levels i.e Ninja and Digital will be selected for the Interview in which they will be offered an annual package of 7 LPA.

Career Guidance

DATE: 26/01/2022

Description of Event:

A session on “How to crack Campus interviews?” was conducted for the Third Year and Final Year students. The session was conducted by SmartWayz. In this session, the students were given a detailed explanation about Campus Interviews and what Companies expect of students regarding their resumes. They were also explained about the various rounds conducted by Companies be it technical or HR and how to ace them.

This session was attended by 128 students. There were students from Computer Department, Electronics and Telecommunication Department and IT Department.

A Q/A session was conducted post this session to allow students to clear their doubts on the topic to help them in the future.

Student Feedback and Benefits:

Students learned how to tackle various types of questions that could be asked to be it technical or HR interviews with clearance of all their doubts. This session will surely help them in their Placement Process.

Description of Event:

A webinar on “How to get a placement in MNCs?” was conducted for the students of Batch of 2023. The session was conducted by -----, a ----- . In this session, the students were briefed about the emergence of MNCs in the corporate world and the various opportunities available for Engineering graduates in the same field.

The students were introduced to the work culture in MNCs and were also told the various top MNCs one can get into. They were also taught the techniques, tips and preparation tricks to bag a placement in MNCs

This session was attended by 200 students. There were students from Computer Department, Electronics and Telecommunication Department and IT Department.

Details about Aptitude Tests that can be taken by students to sharpen their skills for the MNCs interviews were also shared.

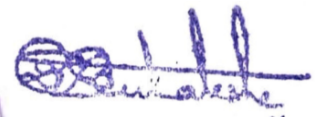

Student Feedback and Benefits:

Students were informed about the plethora of opportunities available and emerging for engineering graduates in MNCs. They were also taught preparation strategies to prepare for the interviews of the same. It was quite an informative and interactive session

No of participants:

SE:140

TE:135

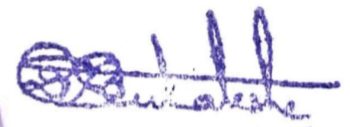

An online orientation program on 'Placement and Internship under IIP' (Industry Internship Program) was held on the 14th of September for all the second and third-year students studying at Xavier Institute of Engineering. Mr. Naveen Kukreja, head of the TPC (Training and Placement Cell) organized the event along with the student event coordinators Sharon Thomas (for SE students) and Baljot Singh Kohli (for TE students) successfully.

The event began with a basic introduction by Mr. Naveen Kukreja on the TPC provisions for XIE. The orientation program not only gave insights on how placements take place in the college through company categorizations and common eligibility criteria of the companies, but also basic placement rules, designations, and offers proposed. Our annual placement statistics were presented, indicating the successful progress made by our students so far. The orientation program highlighted the need for students to enroll themselves in various internship programs. As stated by AICTE, a minimum of one internship requirement has been made mandatory for all engineering students. The students who got placed recently during campus placements shared with us their experiences, which benefited those who attended the event.

Besides the above, an internship-training program has been offered by the TPC through Mr. Chirag Panchal, a certified Microsoft trainer, for providing training and preparation on Microsoft certification exams. The subject domains include Python, Java, SQL, .net for SE and TE and AI for TE as well. Overall, the session was interactive and the students gained knowledge on what steps they must take further with regards to their career and motivated them to prepare well in advance for the same.

Description of Event:

A webinar on “Profile Building for Placement and Career Guidance” was conducted for the students of Batch of 2023. The session was conducted by Bhupender Singh, and others from career labs. In this session, the students were given guidance about the entire step by step process of placement in companies.

The students were thoroughly explained about the process and the importance of a good profile for placements. They were also given valuable tips and tricks to build their profile to bag placements..

This session was attended by 150 students. There were students from Computer Department, Electronics and Telecommunication Department and the IT Department.

Useful Resources about Profile Building that can be usedn by students to sharpen their skills for the interviews were also shared.

Student Feedback and Benefits:

Students were informed about the plethora of opportunities available and emerging for engineering graduates . They were also taught preparation strategies to prepare for profile building of the same. It was quite an informative and interactive session

CERTIFICATE OF ACHIEVEMENT

This Certificate is presented to

Prof. Naveen Kukreja

HEAD TRAINING & PLACEMENT, XAVIER INSTITUTE OF ENGINEERING

In recognition of the efforts and support extended in the year 2021-22 for the **Professional development, Skills development and Career Guidance for your students.**

We acknowledge the assistance you provided and enthusiasm you showed by motivating the students and being a career counselor. Your dedication during this association has helped us immensely. We look forward to working with you in our continued association and transforming the lives of so many more students.

Description of Event:

A Webinar on Career Opportunities with Indian Navy was conducted for all the students from Second Year and Third Year. The session was conducted by the Naval Community as part of Navy Week Celebration 2021. In this session, the various Navy achievers spoke on their inspirational journeys as to what inspired them to join and what it took to reach the position that they have. The students were also guided on the various career opportunities that the Indian Navy provides for the youth and how we can according to our interest as well as specialisation chose our field of interest.

This session was attended by 144 students. There were students from Computer Department, Electronics and Telecommunication Department and IT Department.

Student Feedback and Benefits:

Students learnt about the various career opportunities that the Indian Navy provides so that we can to work for our country with our specialization and choice of interest in the given field chosen.
