

ACTIVITY REPORT on Industrial Visit to the Aiipltech Pvt. Ltd., Vashi, Navi Mumbai

Organized By:	Dr. Vaishali Gaikwad and Ms. Kirti Motwani
Date of the Event:	05/08/2023
Venue:	Aiipltech Pvt. Ltd., Office no. 1010, Satra Plaza, Plot No. 19, Sector-19 D, Vashi, Navi Mumbai.
Designation and Organization of the Speaker(s) :	RK Pillai, President & CEO.
Participants Details:	TE (Computer Engineering)
Number of Participants:	17

OBJECTIVE(s):

- To gain insight into the digital forensics and cybersecurity.
- To learn about various software and hardware tools used for cybersecurity and digital forensics.
- To understand the importance of cybersecurity in industry.
- To experience a real-life industrial environment and gain practical knowledge.

TOPIC: Industrial Visit to the Aiipltech Pvt. Ltd., Vashi, Navi Mumbai

EVENT OUTCOME(s):

- Increased awareness and knowledge about the cybersecurity and digital forensics, including the technologies, and equipment used.
- Enhanced understanding of the importance of Data Security and Data Forensics.
- Improved knowledge about the career opportunities and skill sets required in this field.
- Gained practical knowledge and experience in a real-life industrial environment.

KEY POINTS:

- The students got the first-hand exposure to the latest advancements in cybersecurity and what kind of work is performed in these labs.
- The labs were equipped with a wide range of security tools and software, enabling students to understand and simulate various scenarios and techniques in a controlled environment.
- The students were told about Data Security and Data Forensics. Data Security deals with aspects of securing the daily functional data of an enterprise so that it isn't accessed by unauthorized users.
- The students were shown various surveillance, authorization, monitoring, and safeguarding measures that cybersecurity officials in an enterprise must enforce to ensure smooth operation.
- The students were told about Data Forensics and explained with the help of numerous

examples, also about how data is collected from a crime scene, what precautions are taken while collecting data from a crime scene.

FEEDBACK:

The industrial tour of Aiipitech Pvt. Ltd., was quite educational and eye- opening. The visit gave us a thorough grasp of the methods, the tools and technology employed, utilized for cybersecurity and digital forensics .

Also, the tour provided a wonderful chance to engage with the personnel and learn about their job roles, responsibilities, working conditions, and the safety measures they implement. The staff members were extremely knowledgeable and were able to provide us with comprehensive answers to all our queries. Our visit proved to be an enlightening experience that taught us the significance of cybersecurity. Furthermore, we gained valuable insights into the various career prospects in the cybersecurity field. We extend our gratitude to the Aiipitech Pvt. Ltd. and staff for their warm hospitality and for making our visit both informative and engaging.
