

DATE: 22/10/2020

An online guest lecture was organized for B.E IT on the topic “**Research Perspective at Undergraduate Level**” and it was delivered by Dr. Ujwala H. Bharambe who works as an **Assistant Professor Thadomal Shahani Engineering College, Mumbai**.

The guest lecture was conducted using Google meet on 21st October 2020 and was organized by Ms. Sulochana Devi and Mr. Amit Narote from I. T Department.

Total 50 students attended the guest lecture and the objective of the guest lecture was to provide an insight to the final year students about the research at undergraduate level and help them to understand importance of research.

The speaker shared her views on ‘why should we do research at undergraduate level and how should we do the research’. She emphasized on critical thinking and academic research. She also guided students on writing research papers and answered student’s queries too. The key point shared by the speaker was to select topic for research and prepare a roadmap to proceed.

The students were quite amazed at the different avenues available for them and they also had an interaction with the speaker once the session ended.

Student Feedback and Benefits: The students found the session interactive and informative and it will help them to do research and write research papers.
