No. of Participants: 19 Groups

Class/Semester: BE / SEM 07

Objectives:

The objective of a project exhibition for engineering students is to showcase their skills and knowledge and demonstrate their ability to produce a real-world solution to the current needs using their technical knowledge.

Description:

The Department of Information Technology arranged a Mini Project Exhibition on IOELab for Students of BE IT and the event is coordinated by Dr. Pankaj Mishra on 25th November 2023 at 13 Pm. This event is hosted by Dr. Pankaj Mishra inaugurated by Fr Dr. John Rose. The introduction speech was given by Fr Dr. John Rose, Director. A total of 19 Groups participated and showed their projects using IOE based Sensors and Controllers. Through the project exhibition, students can share their research findings, project outcomes, and innovative ideas with their peers, and faculty members. This allows students to receive feedback and suggestions, which can help them to improve their projects and gain valuable insights. Additionally, project exhibitions provide a platform for students to interact with the experts, allowing them to explore future opportunities. Overall, all the groups performed very well in their projects.
