2. Nilambari Narkar

Date & Place:

Online using Zoom

4th September 2021

Xavier Institute of Engineering

Department:

Computer Engineering

No of participant:

23

A Mock Group Discussion was organized for T.E.& B.E. (COMPS) students and it was conducted by **Mr Anurag Joshi.**
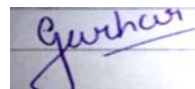

A few students were told in advance that they would be the participants doing the mock GD. These students were divided into two groups with around 6-8 students per group. The speaker requested the first set of students to turn on their camera and un-mute themselves. A topic was given to these students and they were given a minute to think upon it. The students then began the discussion by formally introducing the topic. Every student participating put forth their points on the given topic. The GD went on for 10 minutes. The speaker then gave each participant individual feedbacks and points on which they could improve. The similar procedure was then repeated for the second set of students.

All the doubts/reservations of the students were cleared. Overall, the session was interesting and motivating for students.

Student Feedback and Benefits: The students found the session very informative, helpful and excellent. It was a knowledge gaining session about Group Discussions.

Ms. Kirti Motwani
