3. Ms. Nikita lemos

Date & Place:

LH 05

7th February 2020

Xavier Institute of Engineering

Department:

Information Technology

Computer engineering

No of participant:

120

A guest lecture was organised for T.E IT and Computer engineering students on the topic "Project selection guidance" and it was delivered by an alumnus of XIE, Mr. Stefano Alvares who works as a Softaware Developer in Ocean IT Solutions.

The guest lecture was conducted in LH 05 on 7th February 2020 and was organised by Ms. Sulochana Devi and Ms. Nikita Lemos from I.T Department and Ms. Kavita Jain from Computers respectively.

Total 120 students attended the guest lecture and the objective of the guest lecture was to provide an insight to the third year students about the current trends in the IT industry and help them narrow down their final year project topics based on the discussed topics.

The speaker shared his views on trending topics such as ML, AI,IOT, Block chain and so on. He also suggested few frameworks on which the students can work, planning of the project, how to choose real world problems and answered students queries too. The key point shared by the speaker was to work on a topic which can be converted into a product.

The students were quite amazed at the different avenues available for them and they also had an interaction with the speaker once the session ended.

Student Feedback and Benefits: The students found the session interactive and informative and it will help them select their projects as per the current trends in the industry.
