Title of the event: Major Project Exhibition (BE-IT)

Event Date / Time: 3rd April 2023, 11 am – 01 pm

Event Coordinators: Prof. Suvarna Aranjo.

Details of Project Evaluators: Dr. Jaychand Upadhyay, Prof. Omprakash Yadav.

No. of Participants: 69   **Class/Semester:** BE-IT

Objectives:

To establish a platform for the culminating students to present their expertise and skills through their project endeavors.

Description:

The projects showcased in the exhibition were diverse and covered a wide range of topics, including software development, web development, mobile applications, and artificial intelligence. Some of the notable projects included a real-time web article summarisation system, a blockchain-controlled food tracking system, and a machine learning-based stock market prediction system.

The projects were evaluated by XIE professors and students on various evaluation criteria including technical feasibility and overall presentation. Each project group was given a feedback sheet to record individual feedback of each visiting professor and student.

The major project exhibition was a great success, providing an excellent platform for the final year students of the Information Technology department to showcase their knowledge and skills. The event was well-received by the participants and the visiting professors & students. The exhibition was a great way to celebrate the hard work and dedication of the students, and we look forward to organizing similar events in the future.
