

DATE: 3/09/2021

**Event Coordinator(s)**

**Prof. Suvarna Aranje**

**Time & Place:**

**10am - 11am /  
GoogleMeet**

**Department:**

**IT**

**No of participants:**

**79**

The purpose of research is to increase the store of human knowledge, and so even the very best work is useless if you cannot effectively communicate it to the rest of the world. Hence writing technical papers and presenting them will clarify student thinking and thereby improve their research.

This Seminar helped the students to understand what is technical paper writing and discuss the concrete ways to improve their technical paper writing.

This Seminar **“How to Write a Technical Paper”**, was organized in the Technical week for **TEIT and BEIT** students on **3<sup>rd</sup> September 2021 at 10 am** by the Department of Information Technology of Xavier Institute of Engineering.

Details of the resource person.

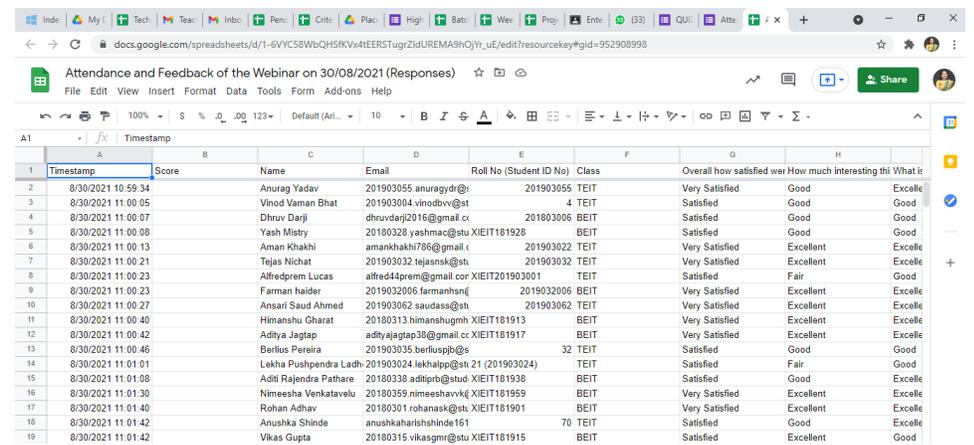

**Dr. Vasim Shaikh (FRRCRCE, Bandra)**
