Intellectual property (IP) generally is thought of as intangible creations of the mind, which may be protected under patent, trademark and/or copyright laws. These laws offer protection that can be used to prevent others from the unauthorized production, copying, use or sale of the IP.

To guide the students in this regard, a webinar on “**Patenting and IPR**”, was organized in the Technical week for **TEIT and BEIT** students on **30th August 2021 at 10 am** by the Department of Information Technology of Xavier Institute of Engineering.

Details of the resource person.

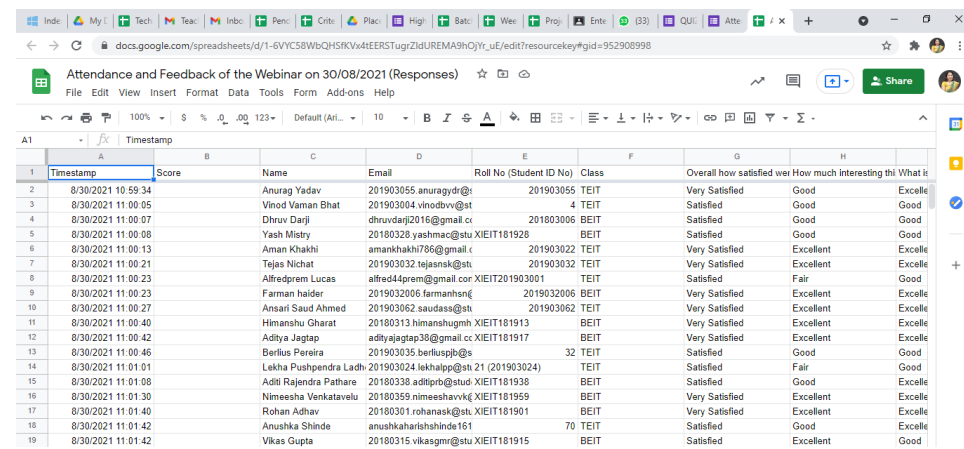

Dr. Bhushan Patil (Dean R&D – FRCRCE, Bandra)

The event was held online on Google meet and had a total of 108 attendees.
