17th March 2021

Google meet

Xavier Institute of Engineering

Department: Computer Department

No of participants: 60

The guest lecture Titled as "Tools for Frontend-Backend Connectivity" was conducted on 17th March 2021.The lecture was conducted for second year students of Computer Department. It was conducted for Database Management System subject.

The guest lecture was conducted by Dr. Deepli Vora. She is the Professor & Head of Department, Information Technology in Vidyalankar Institute of Technology, Mumbai and has completed her PhD in Computer Science and Engineering from Amity University, Mumbai. She has more than 19 years of experience in total in teaching, research and Industry. She has published more than 50 research papers in reputed national, international conferences and journals. She has co-authored three books and 2 book chapters.

The lecture was attended by 60 Second year students of Computer Department. The main purpose of this lecture was to bridge the gap in the curriculum of Database Management System subject. In the curriculum, experiment on database connectivity is listed but tools for frontend topic is not covered in the curriculum.

The session was conducted online on Google meet platform. The information about the guest lecture was conveyed to the students well in advance.

The session was very informative. Students will be able to do the connectivity of Mysql database with Java ,PHP and Python after attending the session.

Feedback: Very well taught by the teacher
Great session, very insightful
ma'am was very polite and the session was great
The lecture was organized very well...

Kavita Jain   Dr.Saurabh Patil
Assistant Professor   HOD(Computer Department)
