Student Feedback and Benefits

1. Helpful in future in career such soft skills to achieve goal
2. Importance of soft skills in overall development and helpful in career development.
3. Data Analysis is the future and huge opportunity available.
4. It was really good taking real time examples like covid-19 to explain data analytics and visualization
5. interview aspect of the topic was of value to learn
6. About principles, agile methodology and project mgmt. Certifications
7. I understood the concept of agile development and scrum framework . As well as the best among kanban and scrum . Thanks to sir for sharing with us about scrum guide booklet and the Trello app.
